

Leading the way for AIDC industry innovation, collaboration & growth!

Formally chartered in 2013, AIM Europe will serve as the single voice for the region in developing deep relationships with the European Commission and other regional & national bodies. **In addition, it will serve as the local organization for European companies that do not have an AIM chapter in their country.** AIM Europe's goal is to coordinate efforts and provide a stronger, better connected – and funded – entity for continued AIDC growth and expansion.

AIM Europe was created to:

- * Secure a single entity representing the greatest network of AIDC experts across the region
- * Establish a system for industry growth in new & emerging areas
- * Put strategies in place to respond to new technology & market developments
- * Create the best access to funding for international & national development projects related to AIDC technology, innovations, standards, and applications.

This is a major step forward for all individuals & organizations involved in AIDC innovation & technologies throughout the European region...a new & stronger voice in the European marketplace that will bring great benefit to our collective efforts.

Frithjof Walk, President – AIM Europe
Sales Manager OBID, FEIG ELECTRONIC GmbH

AIM Europe marks a significant milestone for both AIM and the industry, and AIDC leaders throughout Europe...for even better future growth & sustainability worldwide...an enhanced representative voice for AIDC stakeholders...driving the progress of AIDC awareness & implementation in Europe.

Chuck Evanhoe, Chairman – AIM, Inc.
President, Evanhoe & Associates, Inc.
