Radio Spectrum Policy

WORKSHOP ON EFFICIENT USE OF SPECTRUM IN THE BANDS 870-876 AND 915-921 MHZ

Room 3C, Centre des Conférences Albert Borschette, Rue Froissart 36,

1040 BRUSSELS

19 June 2017

10.00-10.30	Registration and coffee
10.30-10.45	Opening and welcome by chairman Andreas Geiss, DG Connect, EC
10.45-12.30	Presentations of stakeholders What spectrum needs are envisaged in the future, which bands would be appropriate and why? Which applications would benefit precisely from 870-876/915-921 MHz? What are economic and societal impacts? Rail communications RFIDs IoT networks
12:30-13:45	Lunch
13.45-16.00	Discussion along the following topics: What are the benefits of EU wide harmonization? What is the added value of the availability of these bands for above uses? How would it be feasible to accommodate both SRD and railway applications in harmonised minimum core bands across EU? How to achieve coordination in order to avoiding cross-border interference?
16.00-16.30	Conclusions and closing statement
